

Chrome Browser - How To's

Last Modified on 08/19/2026 11:04 pm EDT

How to DOWNLOAD Google Chrome

- Open ANOTHER BROWSER and type: <https://www.google.com/intl/en/chrome/>
- Select download option for the type of computer you have.

How to turn off auto fill in Chrome? (So it wont put a list of companies over the top of the Customers list in OneSource)

- Click the Chrome menu icon. (Three dots at top right of screen.)
- Click on Settings.
- In the "Autofill" section, expand the area for which you wish to disable Autofill.
- Toggle the setting OFF if it is on. The system will automatically save your settings.

How to check for and install the latest version of Chrome

- Open Chrome
- Open the properties (by clicking on the 3 dots in upper right corner)
- Click **Help > About Chrome**.
 - This will show your your version #. Write down the version #.
- Next click **Privacy and security** (on the left side)
- Then click the **BLUE 'Check Now'** button.
- After it finishes the process close make note of the version # again (to see if the number is greater, and to see if you see the words, above the version #: 'Chrome is up to date')
- THEN, CLOSE ALL of your Chrome browser windows and re-open Chrome.

If a certain website is regularly visited and would want to selectively allow pop-ups from that website.

How to **Allow Pop-Ups** in Google Chrome Desktop

Open Chrome web browser and navigate the site that wanted to allow the pop-ups on.

Click the **lock** icon found at the left of the address bar.

- If this LOCK icon is NOT visible, then click on the 'settings' looking icon in the same location. Then click Site Settings.

In the Privacy and security section (on left) you should see the 'settings' for the URL you want to allow (such as s0.1place.cloud) in the center of the screen.

- For the setting called **Pop-ups and redirections** select '**Allow**' from the drop-down list.

How to **Allow ALL Pop-Ups** in Google Chrome Desktop

Open Chrome web browser.

Click the **three vertical dots** found in the top-right of the browser window.

Click '**Settings**' and will be redirected to **Chrome Settings**.

Click '**Security and Privacy**'

Click '**Site Settings**'.

Scroll down to the '**Content**' section and click '**Pop-ups and redirects**'.

In the '**Pop-ups and redirects**' page, scroll to '**Default behavior**' section, choose '**Sites can send pop-ups and**

use redirects'.

In this page, scroll to '**Customized behaviors**', to list websites that allows or blocks pop-ups or use redirects.

- To allow various sites to send pop-ups or use redirects:
 - Scroll down to '**Allowed to send pop-ups and use redirects**' click the '**Add**' button at the right side.
 - '**Add a site**' pop-up will appear, past the URL of the site.
 - Click '**Add**'.
- To block sites from sending pop-ups or use redirects:
 - Scroll down to '**Not allowed to send pop-ups and use redirects**' click the '**Add**' button at the right side.
 - '**Add a site**' pop-up will appear, past the URL of the site.
 - Click '**Add**'.

NOTE: Make sure that '**Don't allow sites to send pop-ups or use redirects**' is selected under '**Default behavior**' section.
